## Setting up the Game

To set up the game, add all of the balls into the storage column in the center of the table

- There are 19 balls in total
- 15 white balls worth 1 point each
- 3 red balls worth 2 points each
- 1 black ball worth 3 points

When all players are ready to play, press the Start button to release the balls into the playfield and let the fun begin!

## Playing the Game

- Once the balls are released into the playfield, try your best to defend your goal from any incoming balls
- The objective of the game is to have the least amount of points scored on you as possible, so try to flip out any incoming balls that head your way!
- Whoever ends up with the fewest total points when there aren't any more balls in play wins the game! **REMEMBER, different colored balls have different values!**
  - For added fun, you can keep track of total points and pick a set amount of games to cumulatively play.
